Sometimes there are problems because unqualified people get into places of leadership or because places of leadership have not been filled. The apostle Paul instructs Titus to “set in order and appoint elders” in the churches on Crete (v. 5). The Greek word for this is a medical term that means “to set a broken bone.” The church body suffers when we avoid facing and solving leadership needs.

Functions of an elder:

1. An elder is to be a **S**\_\_\_\_\_.
2. An elder is to be a **T**\_\_\_\_\_.
3. An elder is to be a **M**\_\_\_\_\_.

Qualities that should **NOT be present** in an elder’s life: (v. 7)

Qualities that **SHOULD be present** in an elder’s life: (v. 8)
